

## Change Using Project Environments

---

Project management and training: Developing people, Delivering projects

---

### CUPE NEWS FROM AROUND THE WORLD....

**C**UPE Ltd is pleased to announce that we are now able to offer extended services and open courses in both PRAGUE and BRUSSELS.

**U**nions were created during September 2007 when CUPE partnered with Symphera in Prague. This partnership is already proving to be beneficial for our International Clientele, by allowing us to offer training in Prague, one of Europe's fastest growing capitals. In 2008 we are already proving that this partnership is a winning formula with 100% exam success.

**P**artnering with Consulere bvba in April 2008 has now allowed us to extend our coverage to Brussels. Consulere bvba has successfully worked with us by providing training on some of our in-house courses in Europe. CUPE is now pleased to announce the launch of open courses in September at the stunning five-star "Chateau du Lac Hotel" in Brussels. This will be to the same high standards people expect from CUPE.

**E**xtra benefits are that CUPE can also offer in-house training to companies based in or around Prague and Brussels without the extra costs of international travel; thus saving both money and the environment. Both Martin Kluson and Bernard Smith are experienced project and programme management consultants who can help you implement all aspects of projects.

For further information on these new open course venues, in-house training or consultancy please do not hesitate to contact us:-

**CUPE on +44 (0)1202 555733 or email us at [enquiries@cupe.co.uk](mailto:enquiries@cupe.co.uk).**
